CUET PG PSYCHOLOGY (PGQP46)

1.Identify the correct preposition to make a meaningful sentence
Radha left Amsterdam two days---------.
1)After
2)ago
3)since
4)between

correct answer:2

2.Identify the meaning of the underlined idiom from the options given.
After his mother's death. Raja was <u>at a loss</u> to know what to do.
1)careful
2)confused
3)unable to decide
4)distracted

Correct answer:3

3. Choose the correct option to make a meaningful sentence.
yesterday, I --------to buy clothes from the spark mall.
1)go
2)are going
3)gone
4)went

a)1
b)2
c)3
d)4
correct answer:4

4.Identify antonym for the underlined word in the sentence.
Rohan's <u>heroic</u> act saved many lives.
1)miserly
2)quiet
3)chivalrous
4)coward

a)1 b)2 c)3 d) 4
correct answer:4

5. Find correctly spelt word from the option given.
1) Restorent
2) tolerant
3) consistent
4) excultent

Downloaded by moin khan (moinamb99@gmail.com)

a)1
b)2
c)3
d)4
correct answer:3

6.Identify the correct passive voice for the sentence given below:
The government has launched the Swachta Abhiyan programme in India.

1) The swachta abhiyan programme is launched by the government in India.

2)The swachta abhiyan programme was launched by the government in India

3)The swachta abhiyan programme has been launched by the government in India

4)The swachta abhiya programme had been launched by the government in India

Correct answer:3

7)Identify the correct indirect speech given below.

Rhea asked. “Did you watch the movie in the theatre last night?”

1)Rhea asked me whether I saw the movie in the theatre last night

2)Rhea asked me whether I had seen the movie in theatre last night.

3) Rhea asked me whether I had seen the movie in theatre earlier night.

4)Rhea asked me did I see the movie in theatre earlier night

A) 1

B) 2

C) 3

D) 4

Correct answer:3

8)match list 1 with list 2

LIST-1(word)	LIST-2(Antonym)
A. antique	1.Approval
B. Antipathy	2. Charge
c. Absolve d. Alien	3. Native 4. vogue

Choose the correct answer from the option given below.

1) A-3, B-4, C-1, D-2
2) A-1, B-2, C-3, D-4
3) A-2, B-3, C-4, D-1
4) A-4, B-1, C-2, D-3

A)1

Downloaded by moin khan (moinamb99@gmail.com)

B) 2

C)3

D)4

Correct answer:4

9)Choose the correct sentence.

1)Let us get down for business

2)Let us get down to business

3)Let us get down at business

4)Let us get down over business

A) 1

B) 2

C) 3

D) 4

Correct answer:2

10)Identify the part of speech of the underlined word in the following sentence.

Uneasy lies the head that wears a crown.

1)Noun

2)Preposition

3) Adjective

4) verb

A) 1

B) 2

C) 3

D)4

Correct answer:4

11. Who among the following enjoys the rank of cabinet minister of Indian union?

1) Deputy chairman of the planning commission

2) Deputy chairman, Rajya Sabha

3) secretory ton the Government of India

4) comptroller and Auditor General

Downloaded by moin khan (moinamb99@gmail.com)

A) 1

B) 2

C) 3

D)4

Correct answer:1

12.Which Indian state launched “mukkyamanthri Nibir Matsyachash prakalpa”?

1) assam

2) Kerala

3) Tripura

4) Telengana

Correct answer:3

13. Government of which state has planned to conduct a program, under the banner of `Rashtriya Ashmita Manch` on April 23, the birth anniversary of freedom fighter veer Kunwar Singh who played a key role in the mutiny of 1857.

1)Chhattisgarh

2) Bihar

3) Rajasthan

4)Uttar Pradesh

Correct answer:2

14. Which features of rocks undergo changes in the process of metamorphism?

1) structure

2)texture

3)carbon content

4)actual chemical composition

Choose the correct answer from answer given below:

1)A, B and D only

2)A and B only

3)A, B, and C only

4) B and C only

Correct answer:2

Downloaded by moin khan (moinamb99@gmail.com)

15) The headquarters of Ghadar party was located in which of the following city?

1) Karachi

2) Lahore

3)Montreal

4)San Francisco

Correct answer:4

16) Six friends -Amar, Bilal, Chnadini, Deep, Eknath and Farid are sitting on a bench facing in the same direction. Chandini sitting between Amar and Eknath. Deep is not at the end. Bimal is sitting to the immediate right of Eknath. Farid is not at the right end. Who is the immediate right of Farid?

1) Deep
2) Chandini

3) Amar

4)Eknath

Correct answer:1

17)In a row of soldiers facing North. Lal Chand is 8th to the right of Khurshid: Mayank is 16th from the left end: Lal Chand is 16th to the right of Jaikishan. Who is 27th from the right end of the row: Khurshid is nearer than Mayank to the right end of row: there are 5 soldiers between Mayank and Khurshid. How many soldiers are there between jai Kashan and Mayank?

1)3

2) 2

3)1

4)4

Correct answer:3

18)A, B, C, D and E, each are to be taught for one month duration from January to May one after the other though not necessarily in the same order by lectures P, Q, R, S and T.P teaches course B but not in the month of April or May. Q teaches course A in the month of March. R teaches in the month of January but does not teach course C or D. which is taught by S?

1) Either C or D

2) A

3) Either D or E

4)B

Correct answer:1

Downloaded by moin khan (moinamb99@gmail.com)

19) Choose the set in which the third statement is a logical conclusion of the first two.

a) some Xs are Ps. Some Ps are Ys. Some Xs are Ys.

b) All bangles are beautiful; some beauties are crazy. some bangles are crazy,

c) No belief is strong. Only strong have muscles. No belief has muscles.

d) All orangutans are men. Some men are strong. Some orangutans are strong.

1) c only

2) a and b only

3) d only

4)a and d only

Correct answer:1

20)Which of the following arguments are formally correct?

a) some bikes are motor bikes. All motorbikes are scooters. Some bikes are scooters.

b) All children are students. No students are bad.no children are bad.

c)No pencil is pen. Some pens are markers. Some pencils are markers.

d) Every man has a wife. All wives are devoted. No devoted has a husband.

1) B and C only

2) A and D only

3) A and B only

4)A and C only

Correct answer: 3

21) The numbers of 4 digits can be formed with the digits 1,2,3,4 and 5, where repetitions of the digits is not allowed is

1) 30

2) 60

3)120

4)240

Correct answer:3

22)A and B travel from point P to Q, a distance of 42 km at 6 km/h and 8 km/h respectively. B reaches Q first and returns immediately and meets A at R. Then the distance from the points P to R is

1) 32 km

2) 36 km

Downloaded by moin khan (moinamb99@gmail.com)

3) 40 km

4) 46 km

Correct answer: 2

23) If A purchases 10 oranges for RS 25 and sells 9 oranges for RS 25, then gain percentage is

1) 12 1/9

2) 7 1/9

3) 9 1/9

4) 11 1/9

Correct Answer: 4

24)Two Natural numbers are in the ratio of 3:5 and their product is 2160.then the smaller number is

1)-12

2)12

3)36

4) 60

Correct answer:3

25) If 7/12, 2/3 and 3/8 are given fraction, then the largest fraction is

1) 7/12

2) 3/8

3) 2/3

4) all are equal

Correct answer: 3

26)Who coined the term psychophysics?

1)Gustav Fechner

2)Ernst Weber

Downloaded by moin khan (moinamb99@gmail.com)

3)Herman von Helmholtz

4)Edward Titchener

Correct answer:1

27)which of the measures of variability ignores the signs before adding the deviations?

1) standard deviation

2) Quartile deviation

3) Average deviation

4) Inter quartile range

Correct answer: 3

28) Match list 1 with 2:

List 1 (PSYCHOLOGIST)		List 2(concept)
A.	Ivan Pavlov	1. Latent learning
B.	B. F skinner	2. Classical conditioning
C.	Edward Tolman	3. Observation learning
D.	Albert Bandura	4. Operant conditioning

Choose the correct answer from the option given below:

1) A-3, B-4, C-2, D-1
2) A-1, B-2, C-4, D-3
3) A-2, B-4, C-1, D-3
4) A-4, B-3, C-2, D-1

Correct answer:3

29) What is the spiral -shaped structure in the inner ear containing mechanoreceptors for hearing?

1) Cochlea

2) Ossicle

3) Organ of corti

4) Oval window

Correct answer: 1

30)Given below are two statements

Statement 1: Token economy is based on the principles of insight

Statement 2: Biofeedback is a form of applied behavior analysis and behavior modification

Downloaded by moin khan (moinamb99@gmail.com)

In the light of above statements, choose the most appropriate answer from the options given below:

1) Both statement 1 and 2 are correct
2) Both statement 1 and 2 are incorrect,
3) Statement 1 correct, but statement 2 is incorrect
4) Statement 1 is incorrect, but statement 2 is correct.

Correct answer:4

31) Which of the following true for the positively skewed distribution?

A) It is skewed to the right.

B) Most of the cases pile up on the left hand side.

C) It is skewed to the left

D) Most of the cases pile up on the right hand side.

Choose the correct answer from the options given below:

1) A and B only

2) A and D only

3) B and C only

4) C and D only

Correct answer:1

32) Given below are two statements:

Statement 1: Value of product moment correlation can be more than one (>1) in some exceptional cases.

Statement 2: Even significant correlation does not tell us anything about causal relationship between two variables.

In the light of above statements, choose the correct answer from the options given

Below.

1) Both statement 1 and statement 2 are true

2) Both statement 1 and statement 2 are false

3) statement 1 is true but statement 2 is false.

4) statement 1 is false but statement 2 is true.

Correct answer:4

33) Name the philosopher who believed that some knowledge was inborn in humans.

Downloaded by moin khan (moinamb99@gmail.com)

a) Jhone Locke

b)Plato

c)Rene Decartes

d)Franz Joseph Gall

Choose the correcct answer from the option given below:

1)A and B only

2)B and C only

3) C only

4)C and D only

Correct answer:2

34)Which among the following is not true about learned helplessness ?

1) Learned helplessness is marked by motivational, emotional,and cognitive defecits

2)Depressed people often are in a state of learned helplessness

3) Individuals high on learned helplessness often set unrealistically high goials for themselves

4)Martin seligman pioneered the study of learned helplesness.

Correct answer:3

35)Which of the following is not true about client centered therapy?

1) Carl Rogers developed the client centered therapy

2) The primary goal of cleint centered therapy is to promote the healthy psychological grwoth of the individual

3)The therapist creats an enviroment that allows a client to achieve self-enhacement and self-actualization

4)The basic therapeutic strategy is to remove and dispute the irrational feelings experienced by client

Correct answer:4

36) Given below are two statements

Statement 1: The primary goal of client centered therapy is to promote the healthy psychological grwoth of an individual.

Statement 2:The goal of psychoanalysis is strengthening of ego functions and promote insight to unconscious.

In the light of aboive statements ,choose the most appropriate answer from the options given below:

1)Both statement 1 and 2 are correct

2)Both statement 1 and 2 are incorrect

3)Statement 1 correct ,but statement 2 is incorrect

4)statermrent 1 is incorrecrt, but statement 2 is correct

Correct answer:1

37)Who among the following use level 1 and level 2 to distinguish between types of intelligence

1) Cattel

2)Spearman

Downloaded by moin khan (moinamb99@gmail.com)

3) Thurstone

4)Jensen

Correct answer:4

38)Which of the following is represented by the greek alphabet `Rho`?

1)Pearson product moment coirrelation

2)chi square in case of cells having low freaquencies

3)chin square in case of cells having high freaquencies

4)Spearmans rank order correlation

Correct answer**:**41

39)What is the fullform of SPSS?

1) Statistical pakage for social sciences

2)Statistical package for social scientists

3) scientific practice for Social Scientists

Correct answer:14

40)Which of the following correlations explains maximum varience?

1) +.80

2)+.75

3) -.90

4)-.85

Correct answer:C

41)Given below are two statements

Statement 1: As per the law of parsimony, people prefer complex explanations of a phenomenon than simple explanations

Statement 2: The law of parsimony involves the consideration of a veriety of explanations.

In the light of aboive statements ,choose the most appropriate answer from the options given below:

1)Both statement 1 and 2 are correct

2)Both statement 1 and 2 are incorrect

3)Statement 1 correct ,but statement 2 is incorrect

4)statermrent 1 is incorrecrt, but statement 2 is correct

Correct answer**:**2

42) match list 1 with list 2

List 1(phobia)	List 2(situations)
A)Agorophobia	1)Strangers

Downloaded by moin khan (moinamb99@gmail.com)

B)Xenophobia 2)Entering public spaces

C)Acrophobia 3)fire

D)Pyrophobia 4)heights

Choose the correct answer from option given below

1) A-2,B-1,C-4,D-3

2)A-1,B-2,C-4,D-3

3)A-3,B-4,C-2,D-1

4)A-2,B-3,C-1,D-4

Correct answer:1

43) Who among the following did research to determine the smallest diffrence between two weights that could be detected'

1) Fechner

2) Weber

3) Wundt

4) Helmoltz

Correct answer:2

44) The appearance of learned response again after extiction in classical conditiong experiments shows----------.

1) Spontaneous recovery

2) Stimulus generalization

3) Stimulus discrmination

4) higher order conditiong

Correct answer:1

45)Given below are two statements : One is labelled as Assertion A and the other labelled as Resaon R.

Assetion(A):Normal distribution curve when plotted never touches the x-axis

Reason(R):The range of normal distribution is from -infinity to + infinity.

In the light of above statements< choose the most appropriate answer from the options given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is not correct but R is correct

Correct answer: 1

46) What is the sensation when you feel that you, or the enviromnent around you, are moving or spinning when both are actually stationary?

Downloaded by moin khan (moinamb99@gmail.com)

1) Extra locomotive perception

2)Coriolis effect

3) Vertigo

4) Oculogyral illusion

Correct answer:3

47)What is the full range of human sensitivity to pure tones?

1) 30 Hz to 40,000 Hz

2)20 Hz to 20,000 Hz

3)50 decibels to 50,000 decibels

4)120 decibels 200 decibels

Correct answer: 2

48))Given below are two statements : One is labelled as Assertion A and the other labelled as Resaon R.

Assertion(A): Arousal reders to the level of activation

Reason(R): Deep sleep and mania are on the extreme ends of continous arousak.

In the light of above statements , choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct answer:1

49) Given below are two statements: One is labelled as Assertion A and the other labelled as Reason R.

Assertion(A): Arousal refers to the level of activation

Reason(R): Deep sleep and mania are on the extreme ends of continuous arousal.

In the light of above statements, choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct answer: Dropped question

50)Given below are two statements:

Statement 1: There are different type of long-term memory

Statement 2: sensory memory and working memory are types of long-term memory

Downloaded by moin khan (moinamb99@gmail.com)

In the light of aboive statements ,choose the most appropriate answer from the options given below:

1)Both statement 1 and 2 are correct

2)Both statement 1 and 2 are incorrect

3)Statement 1 correct ,but statement 2 is incorrect

4)statermrent 1 is incorrecrt, but statement 2 is correct

Correct answer:3

51)Match list 1 with list 2

List 1	List 2
Psychologist	concept
A) Atkinson and shoffrin	1)Non sense syllables
B) George sperling	2)Three system approach to memory
c)Herman Ebhinghaus	3)levels of processing
d)Craik and Lockhart	4)Existence of sensory memory

Choose the correct answer from the options given below:

1) A-3,B-1,C-4,D-2

2)A-2,B-4,C-1,D-3

3)A-4,B-3,C-2,D-1

4)A-1,B-2,C-3,D-4

Correct answer:2

52)Which part of the cdentral nervous system controls endocrine functions by regulating pituitary gland?

1) amygdala

2) Hippocampus

3) Hypothalamus

4) Medulla

Correct answer:3

53) A deficiency of emotional responsiveness is called

1) othello error

2)Ideosyncratic error

3)Alexithemia

4)paralanguage

Correct answer:3

54) A person striving for excellence and mastery in task,is high on which of the following needs?

1)Need for affliation

2) Need for power

Downloaded by moin khan (moinamb99@gmail.com)

3) Need foe acheivement

4) Need for approval

Correct answer:3

55) The schedule of reinforcement in which every correct response is reinforce is called

1) Intermittent reinforcement schedule

2)continuos reinforcement schedule

3)fixed ratio schedule

4)varable ratio schedule

Correct answer:2

56)Which among the following is not a part of Wescler Adult Intelligence Scale(WAIS)

1)Verbal comprehension index

2)working memory index

3)processing speed index

4)episodic memory index

Correct answer:4

57)Given beloware two statements : one is labelled as Assertion A and other is labelled as Reason R .

Assertion(A):Culture fair intelligence test is speed cum power test.

Reason(R): There is a time limit for eacg subtests included in the culture fair intelligence test.

In the light of above statements , choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct answer:2

58) Given beloware two statements : one is labelled as Assertion A and other is labelled as Reason R .

Assertion(A):The size of action potential is unaffected by increases in the intensity of stimulation beyond the threshold level

Reason(R):All-or-none law states that all neurons must fire at the same time for the impulse to be transmitted.

In the light of above statements , choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct answer:3

Downloaded by moin khan (moinamb99@gmail.com)

59) Given below are two statements : one is labelled as Assertion A and other is labelled as Reason R .

Assertion(A): Frued`s patients suffered from nervous disorders for which he and other doctors could not find any physical cause.

Reason(R): freud proposed that there is an unconscious mind into which we push, or repress, all of our threatening urges and desires. These repressed urges, in trying to surface, created the nervous disorder in his patients.

In the light of the above statements, choose the most appropriate answer from the options given below:

(1) Both (A) and (R) are correct and (R) is the correct explanation of (A)

(2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)

(3) (A) is correct but (R) is not correct

(4) (A) is not correct but (R) is correct

Correct answer:1

60) Given below are two statements: One is labelled as Assertion A and the other is labelled as reason R.

Assertion(A): Adoption studies have demonstrated that schizophrenia is not influenced by genetic factors.

Reason(R): Environmental conditions give rise to schizophrenia disorders. In the light of the above statements, choose the most appropriate answer from the options given below:

(1) Both (A) and (R) are correct and (R) is the correct explanation of (A)

(2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)

(3) (A) is correct but (R) is not correct

(4) (A) is not correct but (R) is correct

Correct answer:4

61) Match list 1 with list 2

List 1	List 2
Psychologist	Concept
(A)Spearman	(1)Tetrad equation
(B)Jenson	(2)Second order
(C)Sternberg	(3)Triarchy
(D)Cattel	(4)Regression argument

Choose the correct answer from the options given below:

(1) (A)-(2), (B)-(3), (C)-(4), (D)-(1)

(2) (A)-(1), (B)-(3), (C)-(2), (D)-(4)

(3) (A)-(1), (B)-(4), (C)-(3), (D)-(2)

(4) (A)-(2), (B)-(4), (C)-(3), (D)-(1)

Correct answer:3

(62): The tendency to remember uncompleted tasks better than completed ones is called ……..

Downloaded by moin khan (moinamb99@gmail.com)

(1): Anterograde amnesia

(2): Tip of tongue phenomenon

(3): Retrograde amnesia

(4): zeigarnik effect

Correct answer: 4

(63): For a swimmer, the information on 'how to swim' is stored in which of the following memories?

(1): Procedural

(2): Episodic

(3): Semantic

(4): Declarative

Correct Answer:1

(64): The memories of our childhood would form a part of which of the following memory?

(1): Short term memory

(2): Sensory Memory

(3): Autobiographical memory

(4): Working memory

Correct Answer:3

(65): Who among the following are Indian psychologists?

(A): Girindra Sekhar Bose

(B): S.M Mohsin

(C): C.M Bhatia

(D): D.D Kosambi

(E): Yogendra singh

Correct Answer:4

(66): Match list 1 with list 2

Theory of emotion	descrption
A) Cannon-bard approach	1)Awarness of bodily response to a situtation leads to Expeience of emotion
B)schacter-singer approach	2)An opposite reaction automatically follows an emotional response.
c) James- Lang approach	3)Felt emotional state are determined partly by the cognitive labelling of feeling of arousal
d)opponent -process Approach	4)Information about a stimulus producing emotion goes to the thalamus which relays to the cortex and internal

Downloaded by moin khan (moinamb99@gmail.com)

organs causing emotional awarness and bodily changes at the same time

Choose the correct answer from the options given below:

(1): (A)-(1), (B)-(2), (C)-(4), (D)-(3)

(2): (A)-(4), (B)-(1), (C)-(3), (D)-(2)

(3): (A)-(4), (B)-(3), (C)-(1), (D)-(2)

(4): (A)-(1), (B)-(3), (C)-(4), (D)-(3)

Correct answer:3

(67): Who has proposed that intelligence has three dimensions?

(1): Sternberg

(2): Guilford

(3): Titchner

(4): Binet

Correct Answer:2

(68): Which of the following is NOT the contribution of Albert Bandura?

(1): Observational learning

(2): Bobo doll experiment

(3): Social cognitive approach to learning

(4): Premack Principal

Correct Answer:4

(69): Brocas arc is located in which of the lobes in the brain?

(1): Temporal lobe

(2): Fronatal lobe

(3): Occipital lobe

(4): Parietal lobe

Correct answer:2

(70): Which among the following is NOT a component of self experiences by William James?

(A): Material Me

(B): Intelligent me

(C): Social me

(D): Selfish me

(3): (B),(C) and (D) only

(4): (A),(B) and (E) only

Correct answer:2

(71): Given below are two statements: One is labelled as Assertion A and the other is labelles as Reason R

Assertion (A): Socail factors are important in shaping the personality.

Reason (R): Horney believed that poor relations with parents lead children to develop maladptive ways of dealing with relationships.

In the light of the above statements, choose the most appropriate answer from the options given below:

(1) Both (A) and (R) are correct and (R) is the correct explanation of (A)

(2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)

(3) (A) is correct but (R) is not correct

(4) (A) is not correct but (R) is correct

Correct answer:2

(72): Which of the following terms is used to explain the identification of behaviours to the specific brain areas in which they are carried out?

(1): Localization

(2): Hemisphere Lateralisation

(3): Brain Plasticity

(4): Neural Specificafion

Correct Answer:1

(73): Which of the following is NOT an archetype?

(1): Anima

(2): Shadow

(3): Animus

(4): Womb Envy

Correct answer:4

(74): Who among the following is NOT a neo-Freudian?

(1): Allport

(2): Erickson

(3): Sullivan

(4): Horney

Correct Answer:1

(75): Which of the following physical changes occur in girls during puberty?

Downloaded by moin khan (moinamb99@gmail.com)

(A): Development of breasts

(B): Pubic hair appears

(C): Larynx enlarges

(D): Body contours become rounded

Choose the correct answer from the options given below:

(1): (A) only

(2): (A),(B) and (C) only

(3): (B),(C) and (D) only

(4): (A),(B) and (D) only

Correct answer:4

(76): Who among the following theorists proposed that knowledge is socially constructed by the child and others within the culture?

(1): Jean Piaget

(2): Lev vygotsky

(3): Erik Erikson

(4): Sigmund Freud

Correct answer:2

(77): Match list 1 with list 2

List 1

Types of reliability

(A) Split half

(B) Alternate form (immediate)

(C) Alternate form (Delayed)

(D) Test-Retest

List 2

Conditions

(1) One testing session and one form

(2) One testing session and two form

(3) Two testing session and one form

(4) Two testing session and two form

Choose the correct answer from the options given below:

(1): (A)-(1), (B)-(2), (C)-(4), (D)-(3)

(2): (A)-(1), (B)-(2), (C)-(3), (D)-(4)

(3): (A)-(2), (B)-(1), (C)-(3), (D)-(4)

(4): (A)-(2), (B)-(1), (C)-(4), (D)-(3)

Correct answer:1

Downloaded by moin khan (moinamb99@gmail.com)

(78): What is the corresponding Z-Score to 50^{th} Percentile?

(1): 50

(2): 0(zero)

(3): 1

(4): 100

Correct answer:2

(79): Which among the following is NOT the component of Big Factor Model Of Personality?

(1): Conscientiousness

(2): Neurotism

(3): Openness

(4): Conservatism

Correct answer:4

(80): Spearman-Brown formula explains which of the following?

(1): Relationship between relaibility and validity

(2): Internal consistency reliability

(3): Item-Total correlations

(4): Relationship between reliability and length of the test

Correct answer:4

(81): Which of the following is an example of a primary reinforcer?

(A): Food

(B): Money

(C): Water

(D): Token

Choose the correct answer from the options given below:

(1): (A) only

(2): (A) and (B) only

(3): (B) and (C) only

(4): (A),(C) and (D) only

Correct answer:3

(82): Which of the following are the functions of sympathetic nervous system?

(A): Heart beat acclerates

(B): Digestion slows

(C): Pupils widen

Downloaded by moin khan (moinamb99@gmail.com)

(D): Lungs Constrict

Choose the correct answer from the options given below:

(1): (A) and (B) only

(2): (A) and (C) only

(3): (A),(B) and (C) only

(4): (B),(C) and (D) only

Correct answer:3

(83): Match list 1 with list 2

List 1

Techniques to study brains

(A):Magnetic resonance Imaging

(B): Functional Magnetic Resonance Imaging

(C): Computerised Arial Tomography

(D): Positron Emission Tomography

List 2

Application

(A): Uses magnetic fields radio waves and blood flow to detect areas of activity within specific brain structures

(B): Uses magnetic fields and radio waves to create detailed brain images

(C): Involves the injection of radio active material to create dynamic brain images

(D): Uses X-rays to create static three dimentional images of the brain

Choose the correct answer from the options given below:

(1): (A)-(1), (B)-(2), (C)-(3), (D)-(4)

(2): (A)-(2), (B)-(1), (C)-(4), (D)-(3)

(3): (A)-(1), (B)-(2), (C)-(4), (D)-(3)

(4): (A)-(2), (B)-(1), (C)-(3), (D)-(4)

Correct answer:2

(84): Which of the following influences the speed of nerve impulses?

(1): Myelin sheath

(2): Cell Body

(3): Axon

(4): Dendrite

Correct answer:1

(85): Arrange the following levels of moral development in right order as suggested by Kohlberg

(A): Universal ethical principals

Downloaded by moin khan (moinamb99@gmail.com)

(B): Heteronomous morality

(C): Social system and conscience

(D): Individualism, instrumental purpose and exchange

(E): Social contract or utility and individual rights

Choose the correct answer from the options given below:

(1): (E),(C),(B),(D),(A)

(2): (A),(C),(B),(D),(E)

(3): (B),(D),(C),(A),(E)

(4): (B),(D),(C),(E),(A)

Correct answer:4

(86): Which of the following is NOT an instrument to evaluate newborn's physical well-being?

(1): Apgar scale

(2): Brazelton Neonatal Behavioral Assessment Scale

(3): Neuroscientific assessment of the full term newborn infant

(4): Neurological Examination of the full term newborn infant

Correct answer:3

(87): Which of the following is a substage of preconventional level of moral development as described by kohlberg?

(1): Social contract

(2): Heteronomous morality

(3): Mutual Interpersonal expectations and interpersonal conformity

(4): Universal ethical principles

Correct answer:2

(88): Who proposed the first scientific theory of colour vision?

(A): David Hubel

(B): Hermann Von Helmholtz

(C): Sir Thomas Young

(D): Ewald Hering

Choose the correct answer from the options given below:

(1): (B) only

(2): (C) only

(3): (D) and (C) only

(4): (A) and (B) only

Correct answer:2

Downloaded by moin khan (moinamb99@gmail.com)

(89): Given below are two statements:

Statement 1: In Top-down Processing, Perception consists of the progession of recognizing and processing information from individual components of a stimuli and moving to the perception of the whole

Statement 2: In Bottom-up processing, perception is guided by higher-level knowledge, experience, expectations and motivations

In the light of above statements ,choose the most appropriate answer from the options given below:

1)Both statement 1 and 2 are correct

2)Both statement 1 and 2 are incorrect

3)Statement 1 correct ,but statement 2 is incorrect

4)statermrent 1 is incorrecrt, but statement 2 is correct

Correct answer:2

(90): What is the sequence of the structure of human ear?

(A): Oval Window

(B): Anvil

(C): Temporal bone

(D): Hammer

(E): Stirrup

Choose the correct answer from the options given below:

(1): (E),(D),(A),(B),(C)

(2): (D),(A),(B),(E),(C)

(3): (A),(C),(B),(E),(D)

(4): (C),(D),(B),(E),(A)

Correct answer:4

(91): Given below are two statements:

Statement 1: Preoperational thinking is the inflexible, illogical, fragmented and perceptually based thinking found typically in preschoolers

Statement 2: Conservation is the understanding that rearranging materials does not alter quantity

In the light of the above statements, choose the correct answer from the options given below:

(1): Both statement 1 and Statement 2 are true

(2): Both statement 1 and statement 2 are false

(3): statement 1 is true but statement 2 is false

(4): Statement 1 is false but statement 2 is true

Correct answer:1

(92): A psychologist wants to determine whether listening to music while studying affects test performance. What treatment is the experimental and the control group likely to receive in this experiment?

(1): Both the groups will listen to music while studying

Downloaded by moin khan (moinamb99@gmail.com)

(2): The experimental group will listen to music while studying, but the control group will not

(3): The control group will listen to music while studying, but the experimental group will not

(4): Both the group will the presented with the music but the control group will be asked not to listen to it.

Correct answer:2

(93): Match list 1 with list 2

List 1

School

(A): Structuralism

(B): Functionalism

(C): Gestalt

(D): Behaviourism

List 2

Concept

(1): Introspection

(2): Pragnaz

(3): Overt Behavior

(4): stream of consciousness

Choose the correct answer from the options given below:

(1): (A)-(1), (B)-(4),(C)-(2),(D)-(3)

(2): (A)-(3), (B)-(2), (C)-(4), (D)-(1)

(3): (A)-(1), (B)-(3), (C)-(4), (D)-(2)

(4): (A)-(3), (B)-(1), (C)-(2), (D)-(4)

Correct answer:1

(94): According to frued, which part of the personality includes the perception of the individual about the kind of person person he/she aims to become

(1): Id

(2): Ego

(3): Ego ideal

(4): Conscience

Correct answer:3

(95): Given below are two statements:

Statements 1: Reliability refers to the consistency of the scores

Statements 2: When a test is reliable it has to be valid.

In the light of the above statements, choose the correct answer from the options given below:

(1): Both statement 1 and Statement 2 are true

Downloaded by moin khan (moinamb99@gmail.com)

(2): Both statement 1 and statement 2 are false

(3): statement 1 is true but statement 2 is false

(4): Statement 1 is false but statement 2 is true

Correct answer:2

(96): Match list 1 with list 2

List 1

(Types of scales)

(A): Nominal scale

(B): Ordinal scale

(C): Interval scale

(D): Ratio scale

List 2

(Property)

(1): Presumed to have absolute zero

(2): Presumed to have reference zero

(3): Difference in successive units of measurement is presumably unequal

(4): Can be used to identify persons/object

Choose the correct answer from the options given below:

(1): (A)-(4), (B)-(1),(C)-(3),(D)-(2)

(2): (A)-(3), (B)-(2), (C)-(1), (D)-(4)

(3): (A)-(4), (B)-(3), (C)-(2), (D)-(1)

(4): (A)-(2), (B)-(4), (C)-(1), (D)-(3)

Correct answer:3

(97): The quality of a self actualized person is

(A): Creativity

(B): Insecured

(C): Autonomous

(D): Unprejudiced

Choose the correct answer from the options given below:

(1): (A) only

(2): (A) and (B) only

(3): (A),(B) and (D) only

(4): (A),(C) and (D) only

Correct answer:4

(98): Given below are two statements : One is labelled as Assertion A and the other is labelled as Reason R

Downloaded by moin khan (moinamb99@gmail.com)

Assertion (A): Insight can be attained through trail and error learning alone.

Reason (R): Insight learning involves the understanding of relationships

In the light of the above statements, choose the most appropriate answer from the options given below:

(1) Both (A) and (R) are correct and (R) is the correct explanation of (A)

(2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)

(3) (A) is correct but (R) is not correct

(4) (A) is not correct but (R) is correct

Correct answer:4

(99): Which of the following scores are not a part of the 'determinants' category of scores in Rorschach test?

(1): Form

(2): Movement

(3): Whole

(4): Colour

Correct answer:3

(100): Given below are two statements:

Statement 1: Antidepressed drugs work by decreasing the activity of the neurotransmitters nor-epinephrine and serotonin.

Statement 2: Decreasing the activity of neurotransmitters GABA decreases generalized anxiety responses.

In the light of the above statements, choose the correct answer from the options given below:

(1): Both statement 1 and Statement 2 are true

(2): Both statement 1 and statement 2 are false

(3): statement 1 is true but statement 2 is false

(4): Statement 1 is false but statement 2 is true

Correct answer:2
